MID-SASK BUSINESS DATABASE
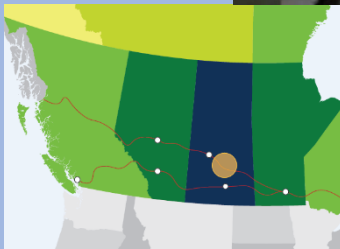

Today in Saskatchewan, businesses provide goods and services to industrial, mining, and energy projects totalling over $10-billion in annual sales.

Mid-Sask Municipal Alliance (MSMA) has launched a new interactive business database that is connecting business to industry, contractors, consumers, suppliers and communities.

With businesses migrating to online platforms to generate sales and customer interaction, this database is a valuable tool for the Mid-Sask region and the Province.

This searchable database is working to strengthen local procurement and build partnerships within the MSMA Region in Saskatchewan.

PRODUCT

CAPABILITIES

SKILLS

SERVICES

This regional online business platform is working to increase awareness of the products, supplies and services available across the region.

This platform will maximize opportunities for you to make new contacts, generate sales, and grow your business.

Partners:

Humboldt & District Chamber of Commerce

Carlton Trail College

Watrous-Manitou Marketing Group
